

UTSAV BANERJEE

Project & Operations Manager | Automation & Google Workspace Specialist

Startup-seasoned project and operations manager with 3+ years of experience driving end-to-end delivery across business automation, internal tooling, and lightweight ERP systems. Skilled in planning, coordination and stakeholder alignment, with hands-on expertise in Google Workspace automation, Apps Script, Python and low-code ecosystems. Bridges product, tech, and operations to deliver scalable, data-driven outcomes.
